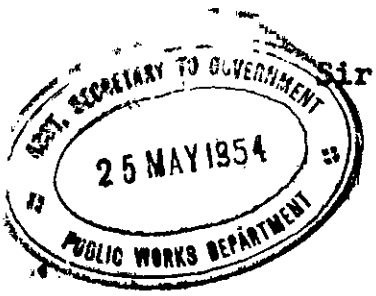
No.574-F/54-5/dated 18-5-54

Sir,



Sub: Electricity--Steps taken for the development of Malnad in South Kanara District--Further particulars furnished

Ref: i. My letter No.574-F/54-4 dt.23-4-54
ii. Govt. memo.No.21374-E/54-4/6-5-54

Since Uppinangadi, Kokkada Bethangadi and Vennur Firkas are far away from Mangalore Hydro Electric Sub-station and extension of Hydro power to these areas is expected to be uneconomical, a thermal scheme with a diesal engine station at a central place for catering to the area including Ujre and Dharmasthala is under investigation.

2. Power supply to Ajekar and Kota will be feasible only after Jog power is made available to Kankala and Coondapur. They will be included in the schemes under preparation for the respective areas.

3. The lead possibilities in Sullja being meagre, extension of hydro power to the Firka is not feasible. It will however be examined whether supply of power could be extended to the area by installing a small oil engine station. As the examination for the establishment of thermal stations will take some time, a further communication will be sent to Government about the end of June 1954.
